J. General Safety Warnings K. User Manual

Which plug goes where?

Want to hook up your new TV to a gaming console or something else? Use the basic guide below to see what the plug and port should look like for

You can find more of these on pages 10 - 11 of the User Manual. (These cables do not come with your TV)

NET CABLE

Use this to connect your soundbar, amplifier, digital receiver, or other external audio equipment.

Use this connection for a DVD player, gaming console, computer and camera.

To watch free-to-air TV channels, you need an antenna connection.

Use this cable to connect the TV to your modem for internet access. This TV also has Wi-Fi connectivity.

On-screen set-up

Follow the on-screen set-up prompts to set your country and language, read and accept the license agreement, connect the TV to the internet, and tune TV channels.

go to the next step

Note: If you choose to setup Netflix or select an input source other than DTV, the set up wizard will exit and will not let you tune TV channels. To tune channels, go to: Menu > Channel > Auto Tuning.

Uh-oh, this isn't right...

Set-up not going smoothly? We've got you! We just need you to check a few things first:

Is it plugged in?

A new TV is exciting! So it's easy to forget something simple - like plugging it into the power

outlet. Psst... make sure the outlet is switched ON.

Look at the manual!

More often than not, the answer you need is right there in the User Manual. The troubleshooting section on pages 47 - 49 may come in handy for tricky stuff.
