# BAUHN®

Quick Start Guide
Model: AFSB-0920-B

Hey!
Let's get your new soundbar ready to use, fast!

1 Have you got everything?

Unpack the box (be gentle) and make sure all of these items are there:

A. 2.0 Channel Fabric Soundbar
B. Remote Control
C. AAA Activ Energy Batteries (2)
D. 3.5mm to 3.5mm Audio Cable

E. Optical Audio Cable
F. AC Power Adaptor
G. Warranty Certificate
H. General Safety Warnings

I. User Manual
J. Quick Start Guide
K. Wall Mount Installation Kit

2 How to install

Display and use your soundbar in a way that suits your space, with these different installation options:

1 Horizontal bar
Place on a secure, flat surface.

2 Wall mounted
For detailed instructions on wall mounting, please refer to pages 8-9 of the user manual for detailed instructions on this process.
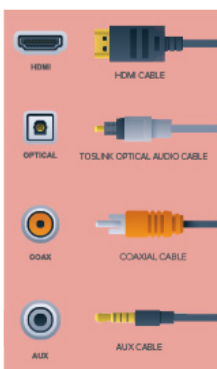

We recommend wall mounting to be done by a qualified professional. Incorrect installation could result in personal injury or property damage.

3 Which plug goes where?

Want to hook up your new soundbar to your TV? Use the basic guide below to see what the plug and port should look like for different connections. You can find more details on these on page 12 of the User Manual.

(Not all cables come with the soundbar, however we have included an optical audio cable and 3.5mm to 3.5mm audio cable for you.)

HDMI / HDMI CABLE — Use a HDMI cable to decrease clutter and for high quality audio. Make sure you enable ARC on your TV in order to use this.

OPTICAL / TOSLINK OPTICAL AUDIO CABLE — Use an optical audio cable for an easy connection with high quality audio capability.

COAX / COAXIAL CABLE — Use a coaxial cable for an easy connection with high quality audio capability.

AUX / AUX CABLE — Use an AUX cable for an easy connection with standard quality audio capability for TV and other audio devices.

Nearly done! Just a bit more on the other side of this page...

4 Get to know the remote

Familiarise yourself with the remote control - you'll be spending a lot of time together.

This remote likes to be pointed at the sensor on the soundbar in order to work properly!

Switch the unit to On or Standby

Switch to HDMI (ARC) mode

Adjust the volume

Choose the music sound effect

Switch to AUX input mode

Switch to OPTICAL or COAXIAL input mode

Switch to Bluetooth® mode

Play/Pause

Previous/Next track

Choose the movie sound effect

Mute the sound

Switch to USB input mode

BAUHN

Using your soundbar 5

Press the ⏻ (POWER/SOURCE) button to switch the soundbar On.

Press the ⏻ (POWER/SOURCE) button on the soundbar repeatedly to switch between HDMI ARC, Bluetooth®, OPTICAL, COAXIAL and AUX modes.

Press the 🎵 and 🎬 buttons on the remote control to select the best preset equalisers for your audio; Music (recommended for listening to music) and Movie (recommended for viewing movies).

To pair your Bluetooth® device with the soundbar, make sure the soundbar is in Bluetooth® mode. When the LED indicator is flashing blue, it means the soundbar is in pairing mode. On your Bluetooth® device, select 'BAUHN AFSB-0920' to pair with the soundbar and start playing your music to it.

? Uh-oh, this isn't right...

Set-up not going smoothly? We've got you!
We just need you to check a few things first:

Is it plugged in?

A new gadget is exciting! So it's easy to forget something simple - like plugging it into the power outlet. Psst... make sure the outlet is switched ON.
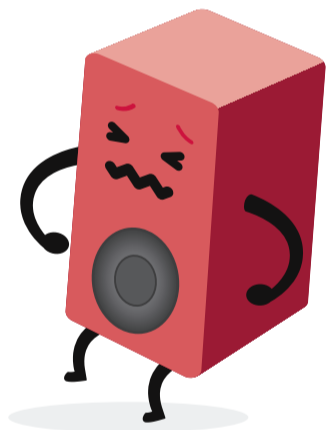

i Look at the manual!

More often than not, the answer you need is right there in the User Manual. The troubleshooting section on pages 20-21 may come in handy for tricky stuff.

Ok, time to give us a call

What? You mean the User Manual didn't have ALL the answers? Speak to us! We'd love to help you get up and running as quickly as possible. Call our **After Sales Support** on **1300 886 649**.

Operating hours: Monday-Friday, 8:30am-6pm; Saturday, 9am-6pm AEST

Your new Soundbar is ready to enjoy!

Well done, you made it.
Now sit back and relax... your new soundbar is automatically covered by a 1-year warranty. How nice!
