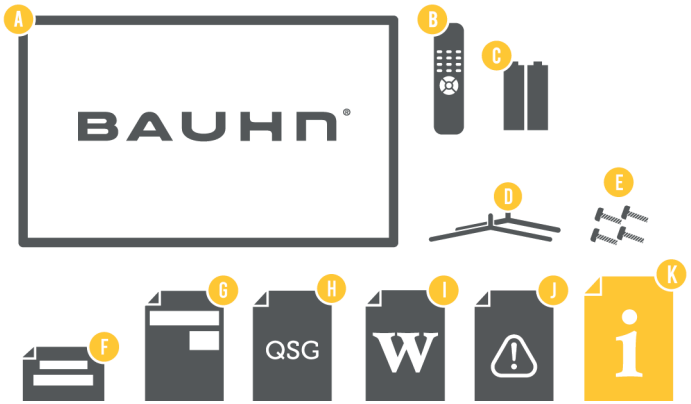
Unpack and Prepare

What's in the Box

Before installing your new TV, check you have everything needed.

In the box you will find:

A. 32" HD TV
B. Remote Control
C. AAA Activ Energy Batteries (2)
D. TV Stands (2)
E. Screws for TV Stands (4)
F. Warning Sheet
G. TV Toppling Safety Message
H. Quick Start Guide
I. Warranty Certificate
J. General Safety Warnings
K. User Manual



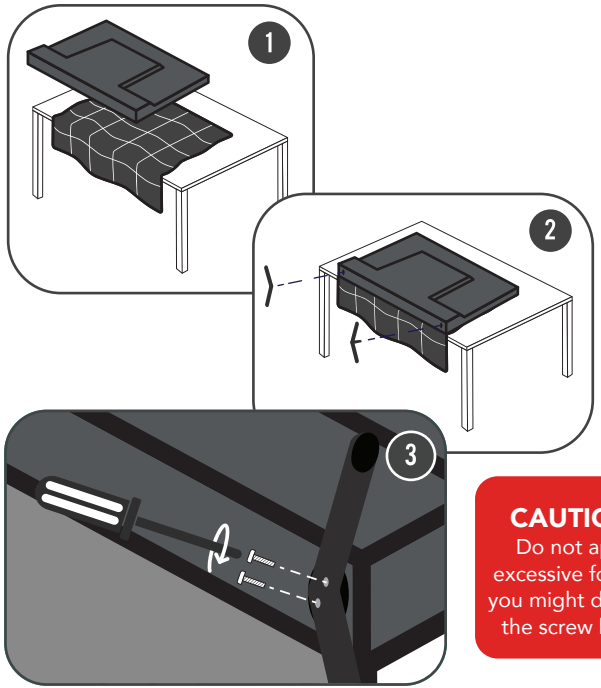
You will need:

- Phillips-head screwdriver (for stand installation)
- Antenna cable (to watch live TV)

Important Tips

- Place the TV on a level surface.
- Place the TV away from any source that may generate heat or vibrations.
- Make sure there is enough space around vents for airflow.
- The remote control works up to 6 metres away from the TV.
- Unplug the TV before cleaning it.
- Clean using a dry cloth only - do not use water or chemicals.
- Use only the power supply provided.
- It is highly recommended to use safety straps for securing the TV in place.
- Keep liquid, children and pets away from the TV at all times.

Attaching the Stand



CAUTION!
Do not apply excessive force as you might damage the screw holes.

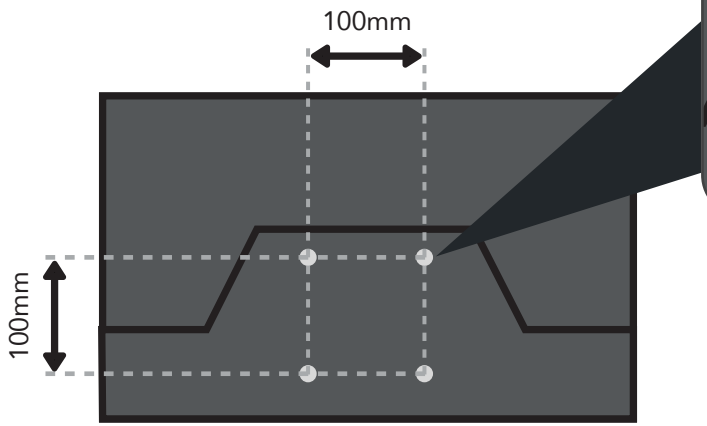
- Unplug the TV from the power outlet before installing or removing the stand.
- Only touch the frame, not the screen.
- It is highly recommended to use safety straps for securing the TV.

Unless you are wall-mounting the TV, you will need to attach its stand/legs.

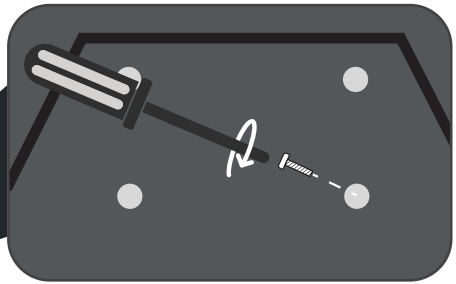
1. Lay the TV face-down on a soft, flat surface (like the sofa, or a towel on a table) larger than the TV itself.
2. Match the stands to the installation points on the underside of the TV.
3. Attach the stands to the TV at the installation points using the screws provided. (Grab a screwdriver for this bit). Make sure the legs are facing away from each other (not leaning inwards).

Wall-Mounting the TV

- Unplug the TV from the power outlet before wall-mounting.
- Contact a professional for assistance with wall-mounting the TV.



Back of the TV



Required

- VESA Mounting Bracket
- 4 x M6*10mm screws (or longer as required)

The TV comes with holes on the back panel for use with wall-mounting brackets (bracket not included).

Use four standard M6*10mm screws (or longer, depending on the mounting bracket) to wall-mount this TV (screws are not included).

The screws in the package are for securing the TV stand only. If you are wall-mounting the TV, consult a qualified installer for advice on bracket support and wall support.

Connect to Power

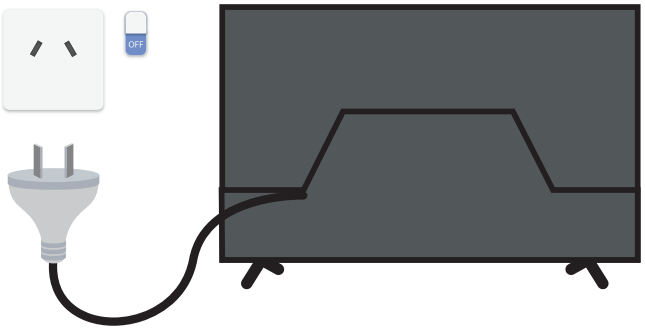


Image is an example only. Plug on your TV may vary.

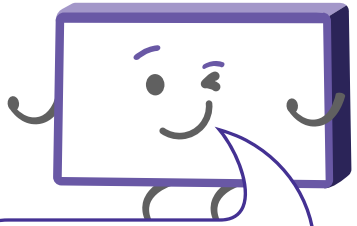


Don't forget to plug in the TV to the power outlet. Leave the power switched off until installation is finished.

Make sure the TV is **switched off** at the power outlet until you have finished connecting your cables.

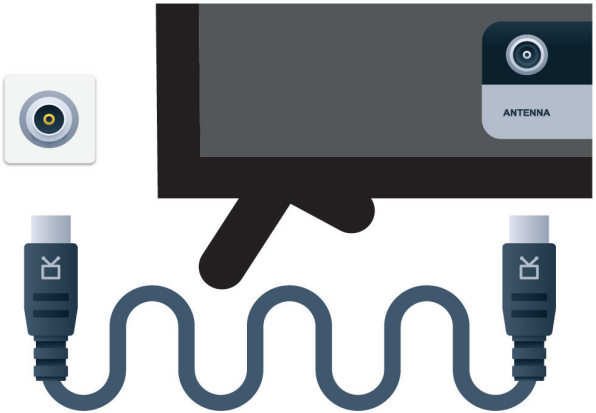
Connect your Antenna

Free-to-air TV in HD (High Definition)

Example
HD Channels

ABC HD
SBS ONE HD
7HD
9HD
10 HD
PRIME7 HD
WIN HD

High Definition (HD) channels provide the best viewing quality and are available with a digital antenna connection.



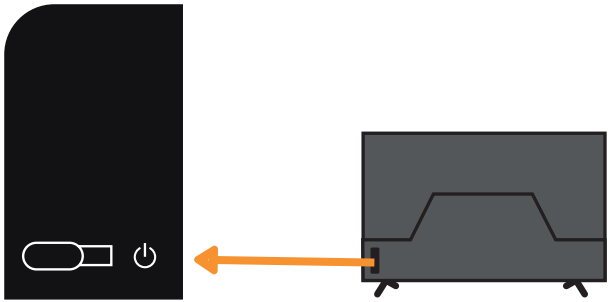
Antenna cable not included.

Controls and Connections

Get to know your TV

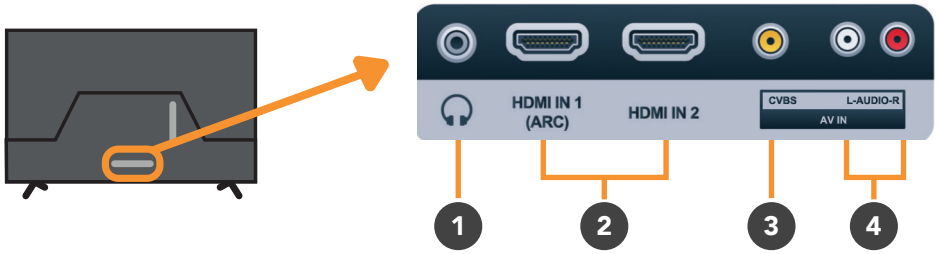
Buttons on the TV

⏻ : Switch the TV on or to standby.

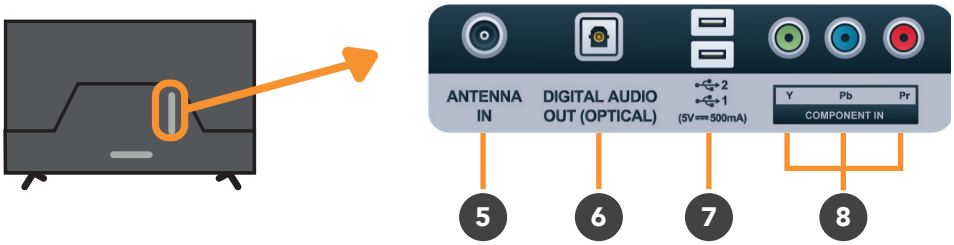


See next page for more info on the connections.

Ports on the TV

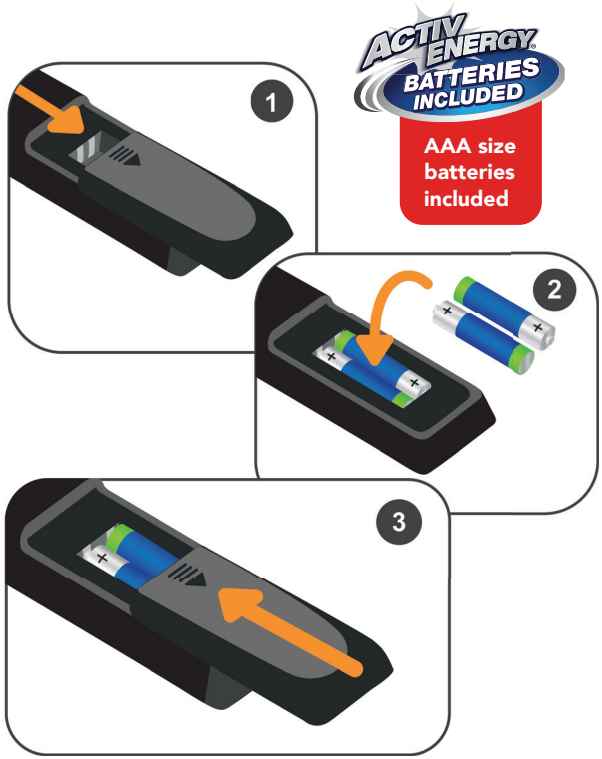


1	Headphone Jack		SOUND	Connect to your headphones, amplifier or audio device, using an AUX cable (not included).
2	HDMI IN		SOUND, PICTURE, COMPUTER	All-digital connection between the TV and any HDMI device. Requires a HDMI cable (not included).
3	CVBS		PICTURE	You can use this to connect your DVD player. Supports Standard Definition (SD) resolution. Requires an AV cable (not included).
4	AUDIO IN		SOUND	You can use this to connect audio to your TV for AV or component video inputs. Requires a RCA stereo audio cable (not included).



5	ANTENNA IN	FREE-TO-AIR TV	Connect your antenna for live TV. (Antenna cable not included).
6	DIGITAL AUDIO OUT (OPTICAL)	SOUND	Connect an external digital audio device. Use an optical cable (not included) to connect the unit with an amplifier, soundbar or other audio decoding device for digital audio signal output.
7	USB	STORAGE	» PVR record and pause live TV » Play your stored media files (supported file codecs and extensions may vary) » Software updates
8	COMPONENT IN	PICTURE	You can use this to connect your DVD player. Supports High Definition (HD) resolution. This also requires a component cable (not included).

Remote Control



Setup

Insert two AAA size batteries according to the polarity markings (+ / -) inside the compartment. Make sure the batteries are correctly aligned and properly pushed into place.

Precautions When Using Batteries

- Do not use old and new batteries together.
- Do not use different types of batteries (e.g. Manganese and Alkaline batteries) together.
- Remove the batteries from the remote if you do not intend to use it for a long time.
- When discarding used batteries, follow any guidelines for recycling and disposal of batteries that apply in your local area.
- Keep batteries away from children and pets.
- Never throw batteries into a fire or expose them to extreme heat.

Using the Remote Control

To use the remote, point it towards the remote sensor at the front of the TV. The remote will not operate if its path is blocked.

The remote has a range of up to about 6 metres from the TV at an angle of up to 30 degrees to either side of the sensor, as illustrated below.

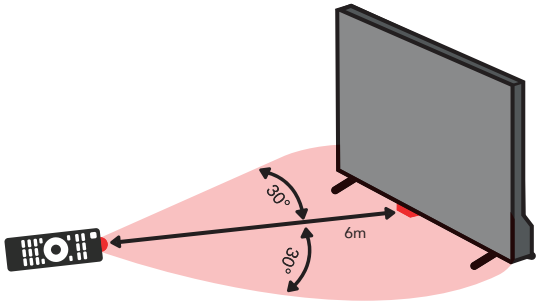


Image is an example only. Remote sensor location on TV may vary.

Remote Hints and Tips

- Do not drop, step on or otherwise impact the remote control. This may damage the parts or lead to malfunction.
- Do not place objects between the remote control and the remote sensor.
- Do not use this remote control while simultaneously operating a remote control for other devices.

Buttons and Functions

/POWER: Switch the TV to On or Standby

/GOTO: Jump to a different chapter of the DVD

/ANGLE: View DVD playback from different angles, if the DVD has this feature

FAV: Press to display your favourite program in DTV mode

TEXT: Switch between TV and Teletext mode*

SUBTITLE: Enable/disable subtitles in DTV mode

SIZE/ZOOM: Change the picture size

MEDIA: Select USB mode

: PLAY/PAUSE in TIMESHIFT and USB mode

REC / D.SETUP : Record program in DTV mode / Display the main disc menu in DVD mode

: Stop playback

MENU: Display the main TV menu

/ / / : Press the UP/DOWN/LEFT/RIGHT buttons to navigate the on-screen menus and adjust the system settings

OK: Display the channels list (DTV)

TV/RADIO / EJECT: Switch between TV or radio / Eject a disc (DVD)

/A-B: Repeat selected DVD scenes

/REPEAT: Repeat playback of a selected chapter, title, or the entire DVD

SLEEP: Set the TV sleep timer

FREEZE/HOLD: Hold the picture temporarily

SUBPAGE: Manually jump to the previous or next subpage of Teletext*

ASPECT: Change the size of the image on your screen

:Fast forward

: Rewind

/INDEX: Play next file./ Display the recorded programs list (DTV)

: Play the previous file

TITLE/EXIT: Display the DVD title menu/Exit the main menu

* Teletext is no longer available in Australia.

SOURCE: Switch the input source

/MUTE: Mute the sound. Press again or press VOL + to restore the sound

VOL +/-: Turn the volume up/down

NUMBER BUTTONS (0-9): Press to select a TV channel directly when watching TV

-/--: Switch the digits

AUDIO/LANG: Switch the available sound-track language (DTV/DVD)

P-MODE: Cycle through the different picture modes

D.MENU/GUIDE: Launch the TV Guide (DTV)/Display the DVD main menu

CH +/- : Change to the next or previous channel

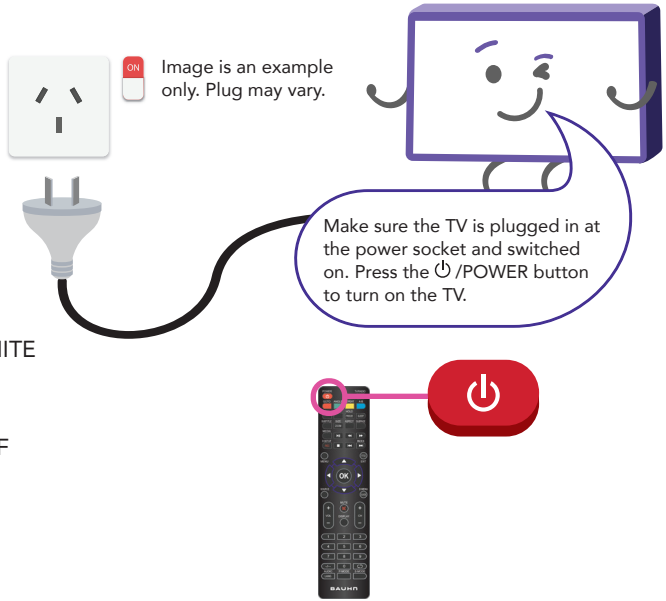
DISPLAY: Display information of the current program

: Return to the previous channel

S-MODE: Cycle through the different sound modes

On-Screen Set Up

Make sure equipment is properly connected (as shown on pages 10-11) before connecting the TV to power.



On/Standby light is WHITE in standby mode.

On/Standby light is OFF when the TV is on.

First Time Setup menu

When you turn the TV on for the first time, the First Time Setup menu will appear.

Follow the prompts using the ▲ / ▼ / ◀ / ▶/ **OK** buttons to select your preferences. You will be able to adjust:

Language | Country | Energy Mode | Tune Type | Sorting by LCN | Auto Tuning

If you make an error, you can update your preferences in the settings menu later.

Channel

Option	Description
Auto Tuning	Automatically tune all available free-to-air TV channels. Adjust settings (default settings are set for Australia). Press OK to start scanning.
ATV Manual Tuning	Manually select and tune analog TV channels. (Analog TV is no longer supported in Australia). Current channel: Press the ◀ / ▶ buttons to select the channel number to save the tuned signal. Colour System: Select the colour system (PAL in Australia). Sound System: Select the sound system (BG in Australia). Fine-Tune: View the file tune setting. Search: Press the **OK** button to start tuning.
DTV Manual Tuning	Manually select and tune digital TV channels. Use ◀ / ▶ to select the broadcast channel. Press OK to begin scanning.
Program Edit	See the next page for more information.
Schedule List	Manage scheduled recordings. Press **REPEAT** to add a new program to record. Press **A-B** to edit an existing schedule. Press **GOTO** to delete an existing schedule.
Recorded List	Display previously recorded programs.
Signal Information	Display current signal information (DTV mode only).

Program Edit

Use the ▲ / ▼ buttons to highlight a channel.

Option	Description
Move	Move the channel location on the list. Press **REPEAT** to enter Move Mode. Use the ▲ / ▼ buttons to select a position and press **REPEAT** to confirm it.
Delete	Press **GOTO** to delete the highlighted channel.
Skip	Press **A-B** to skip the highlighted channel.

Picture

Picture Mode

Home (default): Default picture settings for home use.

Bright Room : Brighter and clearer picture settings for bright viewing environments.

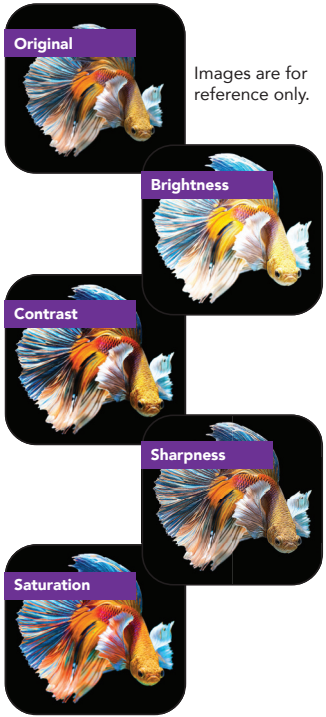
Dynamic : Enhanced brightness, contrast, colour depth and edges so content stands out.

Mild : Enhanced brightness with lower contrast, colour depth and edges.

Personal Adjust settings to best suit your viewing environment and content.

Personal Mode settings

Option	Description
Brightness	Adjust the depth of shadow in the picture. The closer to 0, the darker shadows will look, losing detail in darker images.
Contrast	Adjust the intensity of highlights/white in the picture. The closer to 100, the brighter highlights will look, losing detail in brighter images.
Sharpness	Adjust the sharpness of the picture. The closer to 100, the sharper and clearer the image.
Tint	Adjust the saturation. The closer to 100, the deeper the colour.



Images are for reference only.

See the next page for more menu settings

Option	Description
Colour Temp	Adjust the on-screen colour temperature.
Noise Reduction	Reduces noise to improve picture quality.
Dynamic Contrast	Adjusts the difference between the bright and dark sides of the screen according to the brightness of the image.
Aspect Ratio	Adjust the video size. The available video size may be different for different input sources.

Sound

Option	Description
Sound Mode	Standard Music Sports Personal Movie

These options are available in the Personal sound mode:

Option	Description
Treble	Adjust the levels of higher pitched sounds.
Bass	Adjust the levels of lower pitched sounds.

Option	Description
Balance	Adjust the audio output between the left and right speakers.
AVL (Auto Volume Level)	Turn on to keep the volume level consistent.
Surround Sound	Turn ON/OFF surround sound effect from your TV speakers.
S/PDIF Mode	Set the digital sound output setting.
AD (Audio Description) Switch	Audio Description (AD) provides an additional audio track for visually challenged persons (DTV only, subject to program).
Audio Delay	Adjust if the sound and picture are not synchronized.

Time

Option	Description
Clock	Manually set the date and time.
Time Zone	Select your timezone.
Off Time	Set time and day to turn off the TV.
On Time	Set the time and day to turn on the TV.
Sleep Timer	Select the desired Auto Sleep (Standby) duration.
Auto Standby	Sets the time when the TV will enter standby mode due to inactivity.
OSD Timer	Select the desired OSD (On Screen Display) menu duration.

Lock

Enter the factory password '0000' using the number buttons on the remote and select 'OK' on-screen. If you changed your password but forgot it, you can still use the master password.

Factory Password:	0000
Master Password:	4711

Option	Description
System Lock	Enable/disable the lock on the system.
Set Password	Input a new password using the number buttons on the remote and confirm to set the new password.
Channel Lock	Lock selected channels. Press the ▲ / ▼ buttons to select the channel you want to lock. Press **/ANGLE** repeatedly to lock/unlock the highlighted channel.
Parental Guidance	This item is used to block access to specific program ratings.
Key Lock	Enable/disable TV buttons.
Hotel Mode	See the next page for more information.

Hotel Mode

Option	Description
Hotel Mode	Turn On/Off Hotel Mode.
Source Lock	Turn On/Off the lock on available sources.
Default Source	Set a default input source.
Default Program	Set the default digital program.
Default Volume	Set the default volume level.
Max Volume	Set a limit to the maximum volume level.
Import Database	Import data to your connected USB storage device.
Export Database	Export data to the TV from a USB memory device.
Clear Lock	Clear the above settings.

Setup

Option	Description
OSD Language	Select your preferred On Screen Display language.
Audio Language	Select your preferred audio language. (Available for digital channels, depending on the program).
Subtitle Language	Turn subtitles On/Off (available for digital channels, depending on the program).
Hearing Impaired	For hearing impaired users, this function explains scenes or actions via a descriptive caption. (Available for programs that contain related captions).
Aspect Ratio	Adjust the video size. The available video size may be different for different input sources.
PVR File System	See page 30 for more information.
Blue Screen	When there is no signal or a poor signal, a blue screen will appear.
First Time Installation	Return to First Time Setup menu.
Energy Mode	Select off for normal home viewing or on for in-store retail demonstrations.
Reset to Default	Restore the system settings to the factory default.
Shipping Condition	Reset the TV to shipping condition.
Software Upgrade (USB)	Upgrade the software using a USB storage device.
System Information	View the software information.
HDMI CEC Setup	See the next page for more information.

HDMI CEC Setup

This feature allows for your TV and your connected HDMI device to be controlled by one remote.

Press the **SOURCE** button on the unit or remote control to select the HDMI input source.

Option	Description
HDMI CEC (Consumer Electronics Control)	Turn HDMI CEC On/Off.
ARC (Audio Return Channel)	If this function is enabled, sound from the TV can be sent to an HDMI-ARC supported external audio device.
Auto Power	Turn on/off the auto power function.
Device Menu	Display the available device that is connected.

Make sure your device supports CEC! Also remember to turn on its ARC function.

PVR File System

To make changes to PVR (Personal Video Recording), ensure your USB drive is inserted into the TV. Check the troubleshooting section if you're having problems setting up your USB device.

Option	Description
Select Disk	Select a disk used for PVR.
Check PVR File System	Check the health of the USB drive file system.
USB Disk	Check if the USB disk format is supported.
Format	Format the connected USB disk.
Time Shift Size	Select the memory size for the Time Shift function. Options: 512MB, 1GB, 2GB, 4GB.
Speed	Checks the speed of the storage device.
Free Record Limit	Set the free recording time limit. Options: 1hr, 2hrs, 3hrs, 4hrs, 5hrs, 6hrs

TV Guide

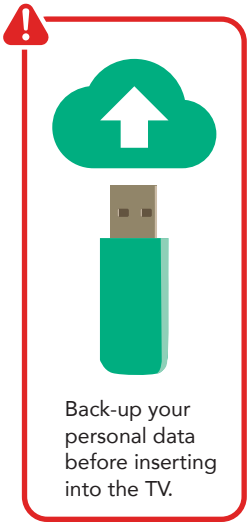
To access the TV guide, press the **D.MENU/GUIDE** button on the remote.

To activate the TV Channels use the ▲ / ▼ buttons to select a channel in the left column, then press **OK** to confirm.

Recording



Back-up your personal data before inserting into the TV.

Important Tips:

- Back-up your personal data before plugging in your USB to the TV. We do not assume liability for any loss of data due to misuse or malfunction.
- You cannot change channels while in recording mode.
- If the signal is interrupted while in recording mode, the recording will stop until the signal is established.
- Do not turn the TV off while it is in time-shift mode.
- The file recorded can only be used on this TV. Do not copy it to any other device.
- When connecting or disconnecting the USB storage device, ensure the TV is not in USB mode, otherwise the USB device or the files stored on it may be damaged.

Before you can record with this TV (including time-shift recording), you must insert your USB storage device into the USB port.

Recording, scheduled recording and pause live TV functions only work in DTV mode (free-to-air).

Recording Live TV

Instant Recording

Press **D.SETUP/REC** once - start recording.

Press **D.SETUP/REC** again to view detailed information.

Stop Recording

Press ■ once - display the dialogue box.

Select **YES** to stop recording.

Select **NO** to continue recording.

When a program is being recorded in the background (while the TV is in standby mode), the Standby/ON light will flash white.

Scheduled Recording

See 'TV Guide' on page 31 about scheduling recordings.

Playback

Press the **INDEX** button to display the list of recorded programs, or press MENU > select Schedule List > Record List then press the **OK** button to display the list of recorded programs.

Press the **OK** button to start playback in Full Screen Mode.

Press **MENU** then select "delete" to delete the selected file.

NOTE: If the tool bar disappears, press the **EXIT** button on the remote control to display it again.

Pause Live TV (Time-shift)

Temporarily pause the live TV signal, then resume playback at your convenience.

Before you can record with this TV (including time-shift recording), you must insert your USB storage device into the USB port.

Start Time-shift

Press the ⏯ button on the remote to enter time-shift mode.

Press the ⏯ or OK buttons to resume playing the program.

Stop Time-shift

Press the ■ button to exit time-shift.

NOTE: If the tool bar disappears, press the **EXIT** button on the remote control to display it again.

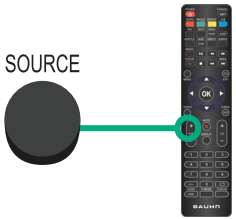
The USB storage device won't retain recorded data after you exit the time-shift function.

USB Mode

Set up

Insert your USB into a USB port on the TV.

Press the SOURCE button to select 'Media' mode.



Function	Remote Button
Choose a source or file	◀ / ▶ / ▲ / ▼

Return to the file list	TITLE EXIT

Troubleshooting

If you experience problems with your TV, check below for advice. If you don't find a solution here, contact After Sales Support on 1300 002 534.

Problem	Solution
The remote control does not work	Make sure that the batteries are installed with their poles (+/–) in the correct direction. Remove any obstacles between the remote control and remote control sensor on the TV. Check if the power indicator at the bottom of the TV blinks when you press the remote's power button. If it does not, replace the remote control's batteries. Try pointing the remote directly at the remote control sensor from 1.5-1.8m away.
The TV won't turn on	Make sure that the AC power cord is securely plugged into the wall outlet. Check the wall outlet is turned on and the power indicator at the bottom of the TV is lit. If using a multi-outlet, check if it is working properly. To check whether a power strip is working properly, plug the TV's power plug directly to a wall outlet and observe its operation. Try to power on using the power button on the TV.
There is no picture/ sound or distorted picture/sound in DTV mode	Ensure the antenna cable is securely connected to the TV and to the wall outlet. Ensure the input source is set to DTV. If "No Signal" is displayed, run Menu > Channel > Auto Scan to search for channels. If some channels are missing, run Menu > Channel > Auto Scan or manually search by Menu > Channel > Digital Manual Scan. Try a different antenna cable or another TV if possible. Move the TV away from electronic equipment or devices that could cause interference. Adjust the antenna position. If the picture appears fuzzy or blurry, select High Definition (HD) channels or programs.

Problem	Solution
There is no picture/ sound or distorted picture/sound from an external device	Ensure that connection to the device is correct and that all cables are fully inserted. Remove and reconnect all cables connected to the TV and the external devices. Try new cables if possible. Restart the connected devices by unplugging each device's power cord and then plugging it in again. If "No Signal" is displayed on the TV, ensure that the correct input source has been selected. When using the component cable, confirm that the green (Y), blue (Pb) and red (Pr) jacks are plugged into their proper connectors.
There is no/distorted/ delayed sound	Ensure the volume is not muted. If it is, press the VOL+ button to restore the sound. If earphones are connected, unplug them. Check the volume level of the external device. Ensure that connection to the external audio device is correct and that all cables are fully inserted. Ensure correct input source and audio settings have been selected on the external audio device. Move the TV away from electronic equipment or devices that could cause interference. If you are using an external audio device via a HDMI cable, ensure that the device supports HDMI-ARC and, if applicable, the ARC setting is turned On (refer to the connection guide in the user manual of the connected device). Ensure on the TV, Menu > Settings > HDMI CEC Control > ARC setting is turned On. If you are using an external audio device via an optical cable, check that the Menu > Sound > S/PDIF mode is set to "PCM". If the TV sound is not synchronised with the picture, adjust the applicable Menu > Sound > Sound Delay setting.

Problem	Solution
USB storage device is not recognised or media files don't play properly	This TV has been tested with the majority of Flash memory-based devices and hard disks (media players with HDD) on the market however, it may not be compatible with certain devices. If the external hard drive has its own power adaptor, use it. Only use a USB storage device formatted in a FAT32 file system provided with the Windows operating system. If it is formatted by a different utility program that is not supported by Windows, it may not be recognised. The TV may not be able to recognise a USB device or read the files if it is connected with a USB extension cable The files that use an unsupported codec or container will not play on the TV. Some files may not play correctly if there is an error in the content or container. Certain files, depending on how they are encoded, may not play on the TV. Sound or video may not work if they have standard bit rates/frame rates above the TV's compatibility ratings.

Compliance and Responsible Disposal

Packaging

The packaging of your product has been selected from environmentally friendly materials and can usually be recycled. Please ensure these are disposed of correctly. Plastic wrapping can be a suffocation hazard for babies and young children, please ensure all packaging materials are out of reach and are safely disposed of. Please recycle these materials rather than throwing them away.

Product

At the end of its working life, do not throw this product out with your household rubbish. An environmentally friendly method of disposal will ensure that valuable raw materials can be recycled. Electrical and electronic items contain materials and substances which, if handled or disposed of incorrectly, could potentially be hazardous to the environment and human health.

National Television and Computer Recycling Scheme

The careful disposal of e-waste is important because many televisions and computers contain materials which are hazardous to people and the environment. There are no fees for householders or small businesses disposing of e-waste at a scheme collection service.

Individuals can contact their local council for information on local e-waste management services, find scheme services listed on Planet Ark's website at www.recyclingnearyou.com.au, or call Planet Ark on 1300 733 712.

Compliance

This product complies with the Australian Safety Standard AS/NZS 62368.1 to ensure the safety of the product.

Warranty Information

The product is guaranteed to be free from defects in workmanship and parts for a period of 12 months from the date of purchase. Defects that occur within this warranty period, under normal use and care, will be repaired, replaced or refunded at our discretion, solely at our option with no charge for parts and labour. The benefits conferred by this warranty are in addition to all rights and remedies in respect of the product that the consumer has under the Competition and Consumer Act 2010 and similar state and territory laws.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and to compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Repair and Refurbished Goods or Parts Notice

Unfortunately, sometimes faulty products are manufactured, which need to be returned to the supplier for repair.

Please be aware that if your product is capable of retaining user-generated data (such as files stored on a computer hard drive, telephone numbers stored on a mobile telephone, songs stored on a portable media player, games saved on a games console or files stored on a USB memory stick) during the process of repair, some or all of your stored data may be lost. We recommend you save this data elsewhere prior to sending the product for repair.

You should also be aware that rather than repairing goods, we may replace them with refurbished goods of the same type or use refurbished parts in the repair process.

Please be assured though, refurbished parts or replacements are only used where they meet ALDI's stringent quality specifications.

If at any time you feel your repair is being handled unsatisfactorily, you may escalate your complaint. Please telephone us on 1300 002 534 or write to us at:

Tempo (Aust) Pty Ltd ABN 70 106 100 252
PO Box 132, Frenchs Forest NSW 1640
