- F. Bass
- G. Treble
- H. LED Lights

- I. Mode (TF Card/Bluetooth)
- J. LED Lights On/Off
- K. Previous Track
- L. Play/Pause
- M. Next Track
- N. Micro USB Input (for charging unit)
- O. Micro SD Card (TF Card)

# 2 Power On

Press the power button for 2 seconds to turn the microphone on/off. When on, a blue LED light will be lit. (Press the Light on/off button to turn the light on/off.)

# 3 Bluetooth Connection

Open the Bluetooth menu on your device (e.g. phone/tablet) and scan the Bluetooth devices. Select 'APMP-1219' to connect. There will be a notification voice once successfully connected.

While singing, operations such as Play/Pause, Last Song/Next Song can be done on your device and/or on the microphone.

**NOTES:**

Once the microphone has been connected to your device for the first time, it will connect automatically the following times. There is no need to pair again.

If you receive a phone call during use, you can use the Play/Pause button to switch to the phone call mode. You can then talk via the microphone.

If you just want to listen to music via the microphone without singing, you can simply set the voice volume to the minimum setting.

If a Micro SD card is inserted, the microphone will switch to Micro SD card mode automatically; press the M button to switch to Bluetooth mode.

# 4 Playing music via Micro SD

Insert a Micro SD card into the Micro SD port. The microphone will detect all of the .mp3 files and start playing them automatically. You can press the operation buttons to pause or switch songs. When playing songs via the MicroSD Card, you can control the voice volume by adjusting the music volume.

**NOTE:** The microphone supports up to 32GB Micro-SD card or TF card. Please make sure the card is formatted as FAT32 format.

## 5 Charging

When voltage is too low, the microphone will turn off automatically. Use the included Micro USB cable to charge. The red light will be lit during charging. Charging time is approximately 2-3 hours; the red light will be off when the microphone is fully charged.

## Specifications

6

Bluetooth	Yes
Battery capacity	1200mAh
Operation time	Up to 5 hours
Power input	DC 5V, 1A
Size	75 x 74 x 262mm
Weight	455g

Peace of mind built-in; your new Buhn product is covered by a 1-year warranty.

This product complies with Australian Safety standard AS/NZS 60065 to ensure the safety of the product.

### Responsible disposal of the packaging

The packaging of your product has been selected from environmentally friendly materials and can usually be recycled. Please ensure these are disposed of correctly. Plastic wrapping can be a suffocation hazard for babies and young children, please ensure all packaging materials are out of reach and are safely disposed of. Please ensure they are offered for recycling rather than throwing these materials away.

### Responsible disposal of the product

At the end of its working life, do not throw this product out with your household rubbish. An environmentally friendly method of disposal will ensure that valuable raw materials can be recycled. Contact your local authority for your nearest recycling centre. Electrical and electronic items contain materials and substances which, if handled or disposed of incorrectly, could be hazardous to the environment and human health.
