

Getting Started

1 What's included

- 1 x True Wireless Earbuds (pair)
- 1 x USB Charging Cable
- 1 x Small Ear Tips (pair)
- 1 x Medium Ear Tips (pair, installed on earphones)
- 1 x Large Ear Tips (pair)
- 1 x Charging Carrying Case

2 Parts and functions

- 1 LED Indicator
- 2 Multi Function Button
- 3 Microphone
- 4 Earbud Tips
- 5 Charging Contacts

3 Pairing the earbuds

1 Connect a Bluetooth® device

Press and hold the Multi Function Button on the L unit for 4 seconds until the indicator flashes green and red alternately.

Make sure that Bluetooth® is activated on your mobile device. Look in the Bluetooth® device list for 'AWEPM-0119' and connect your device to the earbuds.

NOTE: Do not release the button when the indicator is green only, as this will turn on the earbud, but does not yet enter device pairing mode.

2 Auto pairing between Earbuds

Turn on the R unit (the indicator will flash green) and the R unit will connect to the L unit automatically.

3 Turn off the units

Press and hold the Multi Function Button on one of the units for about 2 seconds and both units will turn off.

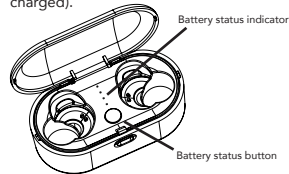

TIPS: When the L unit cannot connect to R unit, try the following to step to reconnect them:

- 1 Press the Multi Function Button on both L and R earbuds at the same time. Hold for 4 seconds until the indicator flashes green and red alternately.

- 2 Double press on the L and R units at the same time. The two units will connect with each other after about 4-6 seconds. During pairing, the indicator light will flash red and green alternately. Once successfully paired, the indicator will quickly flash green.

4 Charging the earbuds

- Put the earbuds into the charging dock, properly aligning the charging connectors.
- The indicator will light red if the battery is low on charge.
- When the earbuds are fully charged, the indicator light will turn green.
- Press the battery status button to show the remaining charge level of the charging case (four lights means the battery is fully charged).

5 Charging the carrying case

- Charge the carrying case using the USB cable at the back of the carrying case.
- The indicator will flash when the carrying case is charging. The four lights show the charging progress.

6 Basic operation

- **Answer a phone call:** Press the Multi Function Button to answer an incoming call; press it again to end the call.
- **Reject a phone call:** Hold the Multi Function Button for 1 second to reject an incoming call.

NOTE: Only the main unit (L) is available to answer a phone call; the R unit will be muted during phone calls.

7 Call waiting

- Ensure that the call waiting function is activated on your phone.
- When you are on a phone call and there is another call incoming, double press the Multi Function Button to answer the second call.
- If you have two calls at the same time, you can switch between them by double pressing the Multi Function Button.

8 Power on

- Press the Multi Function Button for roughly 3 seconds. The indicator will light green.

9 Power off

- Hold the Multi Function Button on either unit for about 2 seconds. Both units will switch off simultaneously (the indicator light will be red).
- You can also switch off the earbuds by placing them into the charging dock.

10 Earbud connectivity and playback

- The two earbud units are in series connection, while the main unit (L) is the only unit that is connected to a mobile device (i.e. smartphone).
- Use the Multi Function Button on the main unit (L) or on your mobile device to control audio playback, such as playing and pausing songs. Use your mobile device to control playing the previous or next song.

11 Technical specifications

Bluetooth® version	4.2
Earbud playback time	Up to 2.5 hours (approx.)
Charging dock battery	3.7V 500mAh
Earbuds weight	9g (2 x 4.5g)
Total weight (including charging dock and earbuds)	45g
Dimensions (L x D x H)	75 x 38 x 30mm

IMPORTANT!

RISK OF HEARING DAMAGE

Never place the earbuds into ears BEFORE turning them on, as the sudden volume may be too high and could cause hearing damage.

Keep the earbuds out of ears until you have turned down the volume. Test this by playing the music and holding the earbuds near (but not IN) your ear, as you turn the volume down.

Once the volume is turned down, you can then place the earbuds into ears and gradually increase the volume to the desired level.

Precautions when using batteries

- Dispose of batteries promptly and properly follow any guidelines for recycling and disposal of batteries that apply in your local area.
- Keep batteries away from children and pets.
- Never throw batteries into a fire or expose them to fire or other sources of extreme heat.
- Do not carry or store batteries with other metallic objects. Doing so could cause batteries to short-circuit, leak or explode.
- Do not attempt to disassemble batteries.

Responsible disposal of the packaging

The packaging of the product has been selected from environmentally friendly materials and can usually be recycled. Please ensure these are disposed of correctly. Plastic wrapping can be a suffocation hazard for babies and young children, please ensure all packaging materials are out of reach and are safely disposed of. Please ensure they are offered for recycling rather than throwing these materials away.

Responsible disposal of the product

At the end of its working life, do not throw this product out with your household rubbish. An environmentally friendly method of disposal will ensure that valuable raw materials can be recycled. Contact your local authority for your nearest recycling centre. Electrical and electronic items contain materials and substances which, if handled or disposed of incorrectly, could potentially be hazardous to the environment and human health.

Climate

If moving the apparatus from one location to another, for example from a cold environment to a warm one. Allow sufficient time for the apparatus to acclimatise to the new location before switching on. In tropical climates keep the air surrounding the unit sufficiently dry to avoid condensation forming.

This product complies with Australian Safety standard AS/NZS 60065 to ensure the safety of the product.
