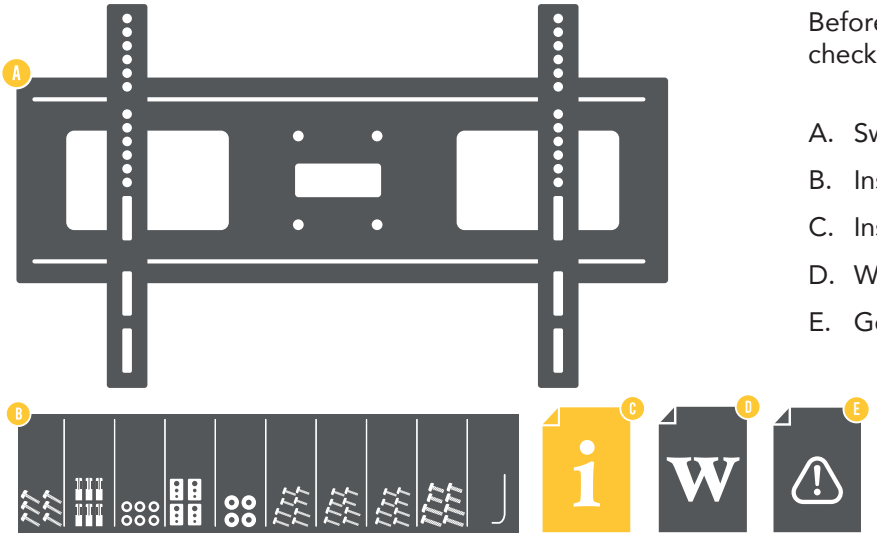
Unpack and Prepare

What's in the Box

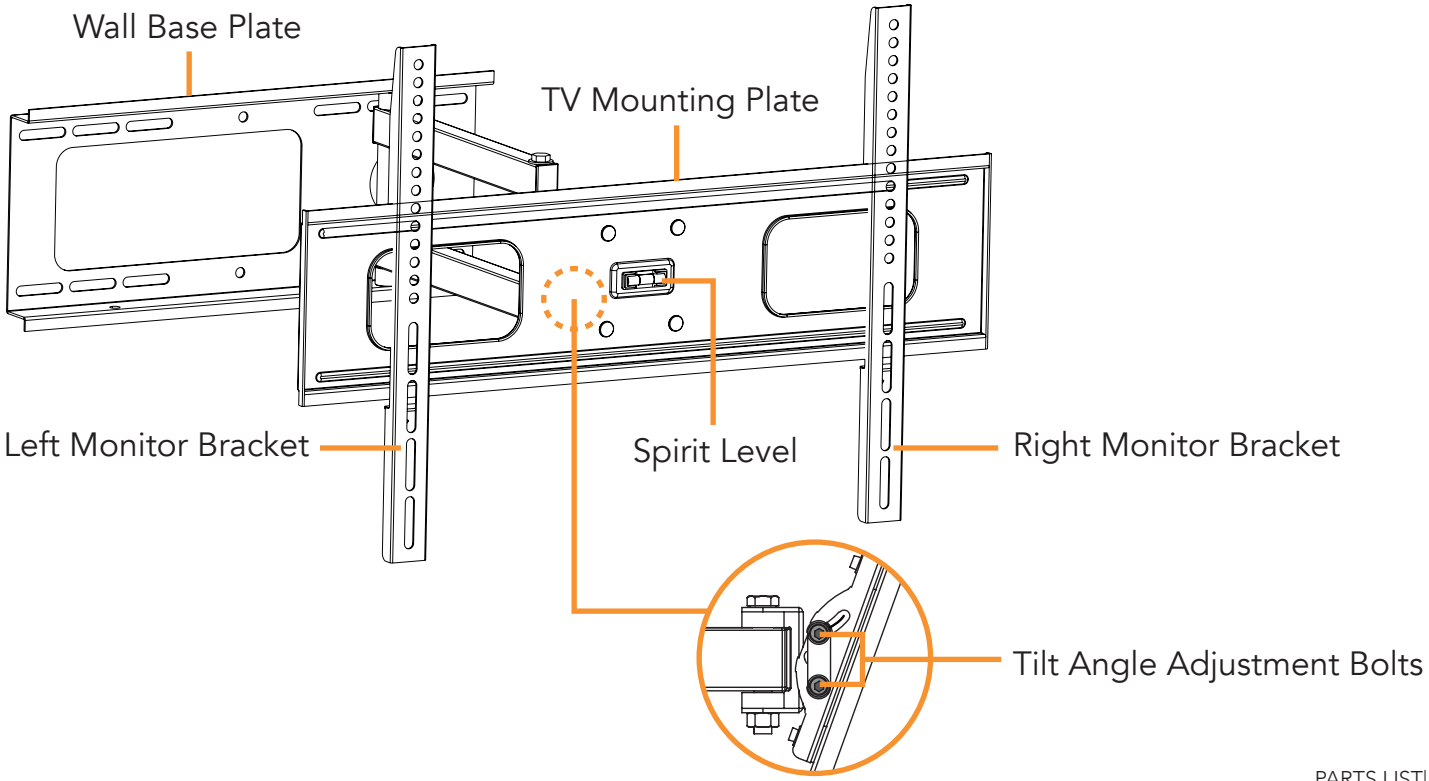


Before setting up your new product, check you have everything:

A. Swing Arm TV Wall Mount
B. Installation Pack (see page 6 for information)
C. Installation Guide
D. Warranty Certificate
E. General Safety Warnings

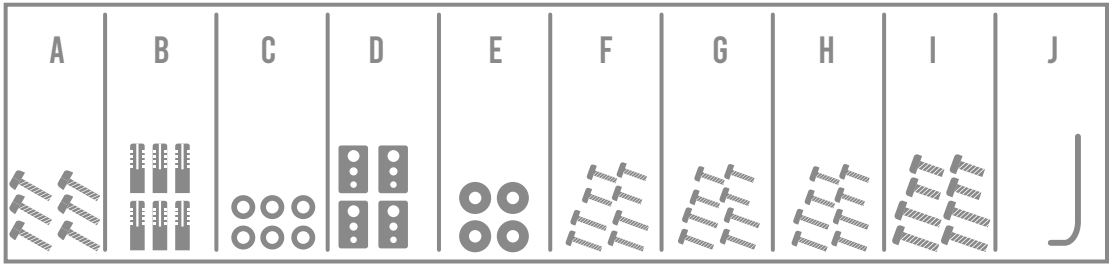
Parts List

Product Overview



Installation Pack (Assembly Hardware)

The illustration below shows the contents of the installation pack. These are the parts that you will need to assemble this wall mount. Some parts are not shown at the same scale.



(A)
Self-Tapping Screw
M8 x 50mm
(6pcs)

(B)
Masonry Plug
ø10 x ø8 x L50
(6pcs)

(C)
Washer
ø 8.5 x ø19 x
T1.6 (6pcs)

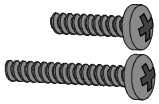
(D)
Flat Washer
M5-M8
(4pcs)

(E)
Plastic Spacer
ø 8 x 14mm
(4pcs)

(F)
Bolt
M4 x 15mm (4pcs)
M4 x 20mm (4pcs)

(G)
Bolt
M5 x 15mm (4pcs)
M5 x 25mm (4pcs)

(H)
Bolt
M6 x 15mm (4pcs)
M6 x 25mm (4pcs)



(I)
Bolt
M8 x 15mm (4pcs)
M8 x 30mm (4pcs)

(J)
Allen Key
(1pcs)

Installation

Make sure you read and understand all instructions. Handle and use all materials strictly according to the instructions. If you do not understand these directions, or have any questions in relation to the safety of the installation, we recommend you contact a qualified professional.

Note: This wall mount is for indoor home use only.

Installation steps:

1. Preparation
2. Drilling the holes
3. Attaching to the wall
4. Attaching the Monitor Brackets to the TV
5. Securing the TV
6. Adjusting the Viewing Angle

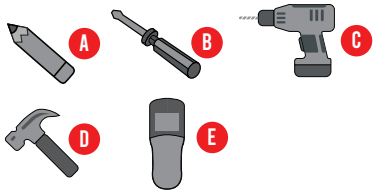
TIP: Installation of the Wall Mount will be easier with two people.

WARNING: Be sure to choose a structurally sound wall area that is strong enough to hold the weight of the TV as well as the wall mount. Mount the wall plate far away from any water source and direct sunlight.

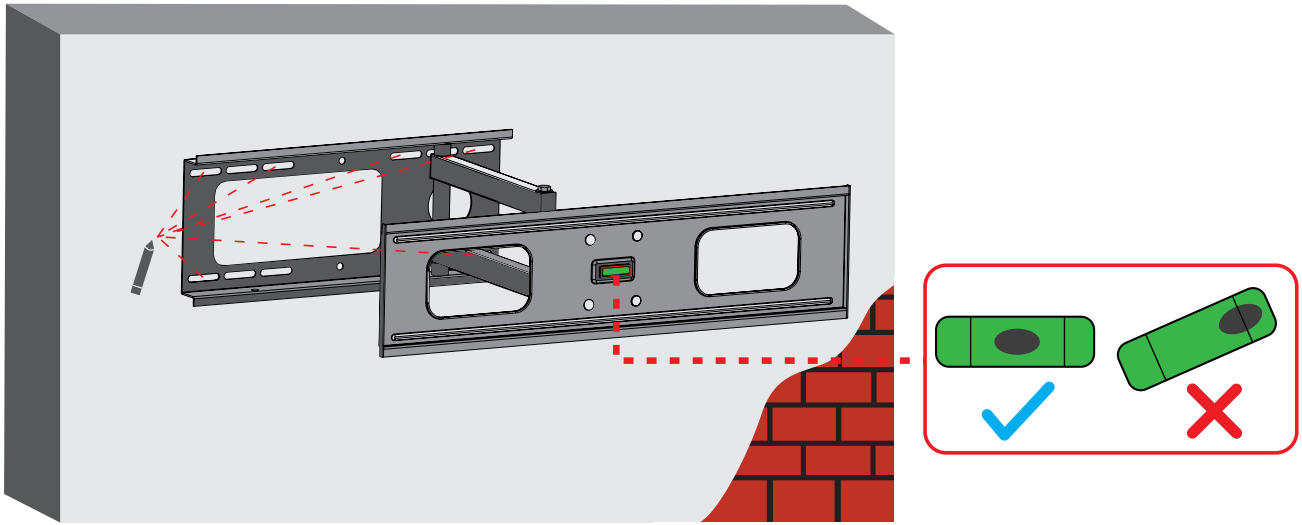
WARNING: DO NOT attach the wall mount to a hollow wall or decorative cardboard.

Tools Required: To complete the following steps you will need:

A. Pencil
B. Phillips Head Screwdriver
C. Power Drill
D. Hammer
E. Stud Detector



1A Preparation (for a Brick or Concrete Wall)



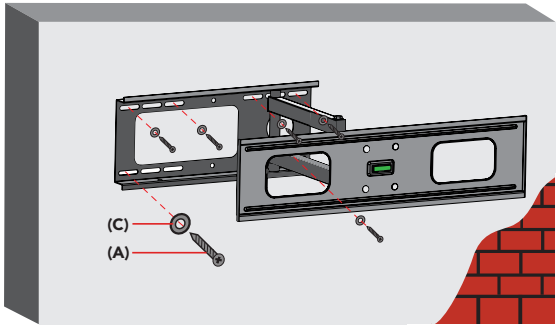
Using the wall base plate as a template, mark six holes in the locations as shown above.

NOTE: Ensure that you align the bracket so that the spirit level is flat and even.

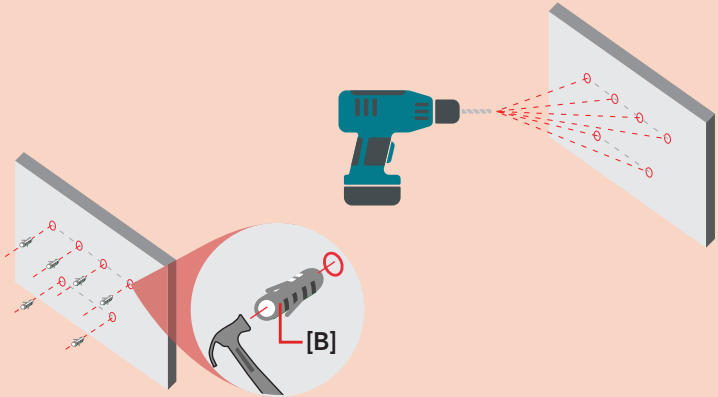
3A Attaching to the Wall

Hold the wall plate against the wall and align the holes in the plate to the holes drilled into the wall.

Screw the wall plate to the wall with the self-tapping screws (A): insert them through the washers (C) into each masonry plug (B) in the wall and then tighten the screws.



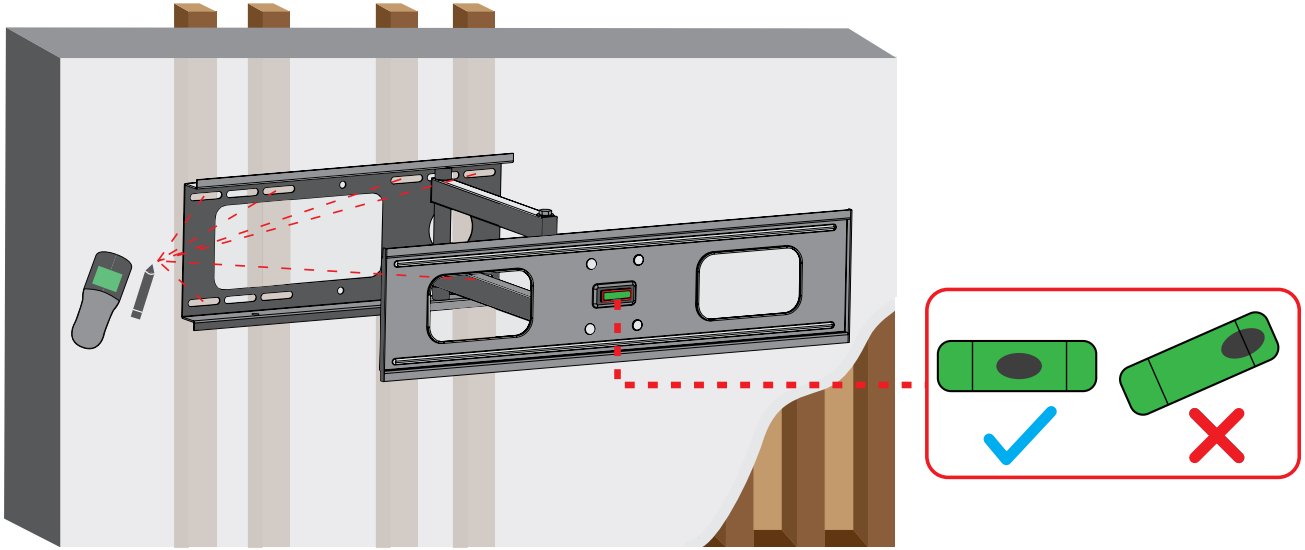
2A Drilling the Holes



On the marked holes, pre-drill holes of 10mm diameter and 60mm depth into the concrete or brick wall. Then wedge the masonry plugs (B) into the holes, gently tap each plug with a hammer until they are flush with the wall as illustrated on the left.

WARNING: Do not drill into mortar joints. Please pay attention to the electrical lines and also the location of gas and water lines when drilling holes.

1B Preparation (for a Wood Stud Wall)



Use a stud detector to locate the centre of the framing studs.

Mark six holes in the locations as shown above. Use the wall base plate as a template.

NOTE: If you are installing the wall mount to a wood stud wall, consult a builder for advice. The wall must be strong enough for the weight of the wall mount and the TV.

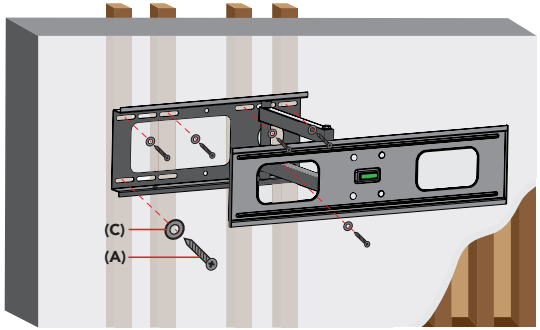
WARNING: You must spread the wall plate across two studs.

Attaching to the Wall

3B

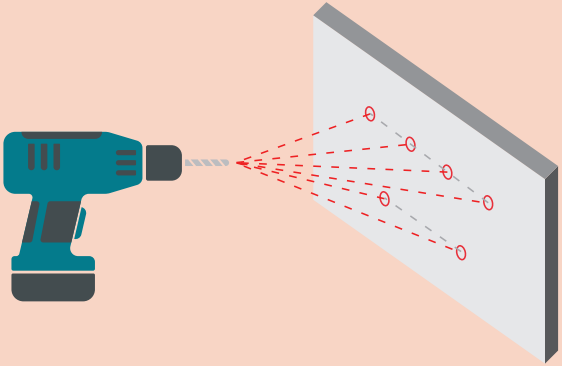
Hold the wall plate to the wall and align the holes in the plate to the holes drilled into the wall.

Screw the wall plate to the wall with the self-tapping screws (A), inserting them through the washers (C).



Drilling the Holes

2B

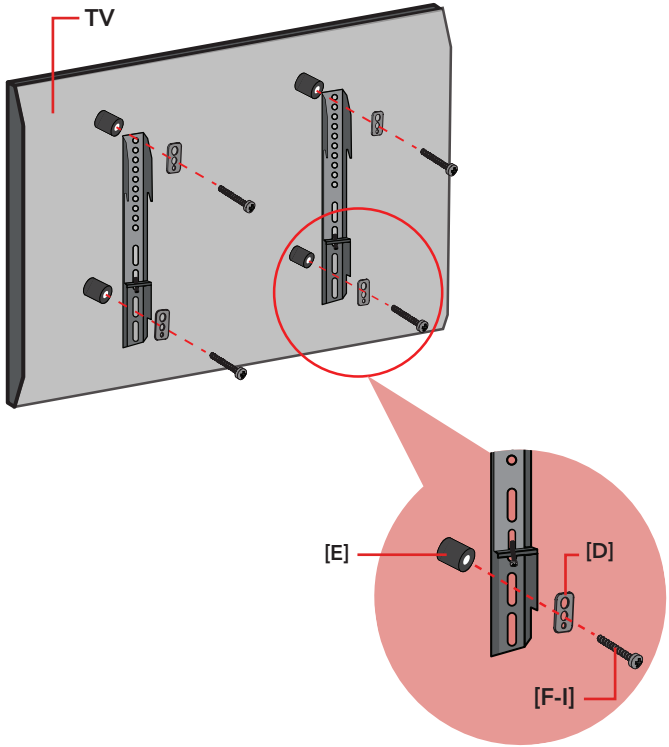


On the marked holes, drill holes of 5mm diameter and 60mm depth into the wood stud wall.

WARNING: Please pay attention to the electrical lines and also the location of gas and water lines when drilling holes.

4 Attaching the Monitor Brackets to the TV

1. Lay the TV face down. Check the back of the TV to find the appropriate mounting pattern.
2. Select the appropriate bolts (F/G/H/I) that fit the thread holes at the back of the TV (refer to the TVs manual to determine the correct bolt sizes). Due to the many varieties of TVs, you may need to visit your local hardware supplier to find the correct bolt and washer sizes.
3. To attach the left and right brackets to the back of the TV, place the mounting arms on the back of the TV and align to match the VESA mounting holes.
4. Insert the correct bolts through the flat washers (D), as illustrated on the right. Use the plastic spacers (E) if necessary (check the TV's back panel).
5. Tighten the bolts and ensure the brackets are firmly bolted into place.
6. When affixing the monitor brackets, make sure that the sides of the brackets with the hooks are towards the top of the display. Use the holes in the centre, ensuring that the mounting holes are at the same level.

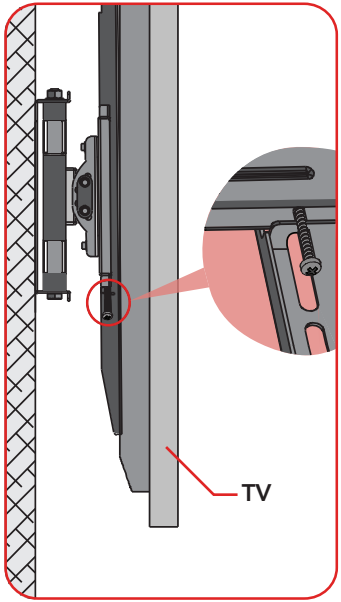


5 Securing the TV

1. Carefully lift the TV and hook the mounting arms over the front plate. Do not let go of the TV until it is securely in place on the brackets.
2. Tighten the bolt under each bracket with a Phillips head screwdriver to secure the TV in place. This will help ensure that the TV does not fall off the wall mount during use.

NOTE:

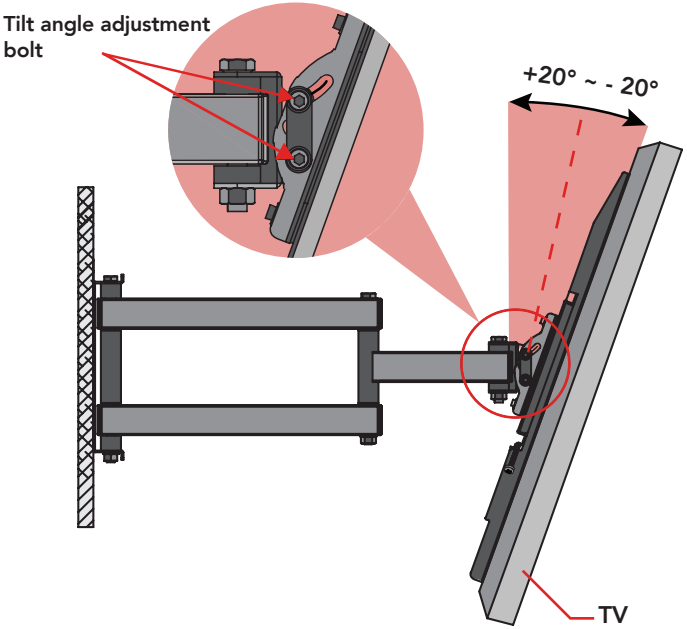
- While adjusting, please take care of your hands to avoid getting pinched and pay attention to the cables' position to avoid damage.
- At least two people are required to finish this mounting procedure. Do not attempt to assemble this wall mount independently, as it may result in incorrect assembly or injury.



6 Adjusting the Viewing Angle

Before adjusting the direction and viewing angle for the TV, loosen the Allen bolts at the rear of the TV mounting plate with the Allen key provided (make sure that they are only loose enough just to tilt the TV, and not so loose that the TV is not secured and can fall).

The viewing angle can be adjusted to ±20°. Tighten the bolts securely again once you have found your preferred viewing angle.



Specifications

VESA Support	Max. 600 x 400mm
Maximum Load	60kg
Size of flat panel TV	32"-65" (81-165cm)
Adjustment Angle	±20° up/down, ±90° left/right
Distance From Wall	65-470mm approx.
Product Weight (including accessories)	4.5kg

Compliance and Responsible Disposal

Packaging

The packaging of your product has been selected from environmentally friendly materials and can usually be recycled. Please ensure these are disposed of correctly. Plastic wrapping can be a suffocation hazard for babies and young children, please ensure all packaging materials are out of reach and are safely disposed of. Please recycle these materials rather than throwing them away.

Product

At the end of its working life, do not throw this product out with your household rubbish. An environmentally friendly method of disposal will ensure that valuable raw materials can be recycled. Electrical and electronic items contain materials and substances which, if handled or disposed of incorrectly, could potentially be hazardous to the environment and human health.

Warranty Information

The product is guaranteed to be free from defects in workmanship and parts for a period of 12 months from the date of purchase. Defects that occur within this warranty period, under normal use and care, will be repaired, replaced or refunded at our discretion, solely at our option with no charge for parts and labour. The benefits conferred by this warranty are in addition to all rights and remedies in respect of the product that the consumer has under the Competition and Consumer Act 2010 and similar state and territory laws.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and to compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Repair and Refurbished Goods or Parts Notice

Unfortunately, sometimes faulty products are manufactured, which need to be returned to the supplier for repair.

Please be aware that if your product is capable of retaining user-generated data (such as files stored on a computer hard drive, telephone numbers stored on a mobile telephone, songs stored on a portable media player, games saved on a games console or files stored on a USB memory stick) during the process of repair, some or all of your stored data may be lost. We recommend you save this data elsewhere prior to sending the product for repair.

You should also be aware that rather than repairing goods, we may replace them with refurbished goods of the same type or use refurbished parts in the repair process.

Please be assured though, refurbished parts or replacements are only used where they meet ALDI's stringent quality specifications.

If at any time you feel your repair is being handled unsatisfactorily, you may escalate your complaint. Please telephone us on 1300 002 534 or write to us at:

Tempo (Aust) Pty Ltd ABN 70 106 100 252
