Remote Control

ACTIV ENERGY **BATTERIES INCLUDED**

AAA size batteries included
Setup

Insert the supplied AAA Activ Energy Batteries according to the polarity markings (+ / -) inside the compartment. Make sure the batteries are correctly aligned and properly pushed into place.

⚠ Precautions When Using Batteries

- Do not use old and new batteries together.

- Do not use different types of batteries (e.g. Manganese and Alkaline batteries) together.

- Remove the batteries from the remote if you do not intend to use it for a long time.

- When discarding used batteries, follow any guidelines for recycling and disposal of batteries that apply in your local area.

- Keep batteries away from children and pets.

- Never throw batteries into a fire or expose them to extreme heat.

Remote Overview

⏻ : press to enter standby mode

MODE : press to switch between input modes. Press and hold to enter/exit microphone priority mode

LED : press to change the speaker light effect. Press repeatedly to change between light effects. Press and hold to turn light effect off

⏮ : play previous song

⏯ : play/pause song

REPE : press to change repeat mode when in USB/Micro SD card mode

**MUTE** : mute the sound. Press again to unmute

⏭ : play next song

VOL- : decrease volume level

EQ : change EQ mode

NUMBER BUTTONS : Numerical input to directly play a track.

Wireless Microphone

1   Battery indicator (red LED when mic is on)

2   On/Off switch

3   Battery cover (twist to open)

Setup

Insert the supplied AA Activ Energy Batteries according to the polarity markings (+ / -) inside the compartment. Make sure the batteries are correctly aligned and properly pushed into place.

ACTIV ENERGY® BATTERIES INCLUDED

AA size batteries included

Precautions When Using Batteries

• Do not use old and new batteries together.

• Do not use different types of batteries (e.g. Manganese and Alkaline batteries) together.

• Remove the batteries from the microphone if you do not intend to use it for a long time.

• When discarding used batteries, follow any guidelines for recycling and disposal of batteries that apply in your local area.

• Keep batteries away from children and pets.

• Never throw batteries into a fire or expose them to extreme heat.

Operation

Charging and Power on

• Charging: plug in the supplied AC power adaptor to the DC IN port (located back of speaker) to charge the speaker for 8 hours before use. During charging, the battery icon on the LED display screen will display the remaining battery capacity and the charging LED indicator will light up red. Please disconnect and unplug the power adaptor after charging.

• Power on: press the POWER switch on the speaker to turn the speaker on.

Control Panel Operations

• Use the |◀◀ / ▶▶| buttons on the speaker or the remote control to navigate between songs/FM stations.

• Use the VOLUME control knob on the speaker or the VOL- / VOL+ buttons on the remote control to adjust the volume.

• Use the MODE button to switch between the input modes. The LED display screen will show the current input mode. Press and hold to enter/exit microphone priority mode.

Battery Status

• You can view the battery status of the speaker on the LED display screen. When the battery is low, a voice notification will be heard. Please plug in the supplied AC power adaptor to charge the speaker.

LED Light

• The speakers have LED lights across the front of the speaker. Press the LIGHT button on the speaker or LED button on the remote control repeatedly to switch between the different light effects. Press and hold the button to turn the light effect on/off. (Note: when on FM mode, the LED light may generate interference when the FM signal is weak, please switch off the LED light if interference occurs).

Bluetooth® Mode

- Press the MODE button on the speaker until Bluetooth® is selected; "bLUE" will flash on the LED display screen and you will hear "Bluetooth mode."
- On your smart phone, search for "BAUHN APPS-0723." If a password is required, enter "0000". If pairing is successful, the LED display screen on the speaker will display "bLUE". You can now play music from your smart phone.
- Press the ▶❙❙ button on the speaker or on the remote control to play/pause music.
- Press the ❙◀◀ / ▶▶❙ buttons on the speaker or on the remote control to select the previous or next track.
- Use the volume control knob on the speaker or the VOL- / VOL+ buttons on the remote control to adjust volume level.
- Alternatively, you can control music playback from your smart phone.
- Once connected to your smart phone, it will auto pair with the speaker for next time use. Please disconnect your smart phone's Bluetooth connection to the speaker if you wish to pair the speaker with a different device.
- After disconnecting Bluetooth® connection, "bLUE" will flash on the LED display screen.
- Note: only one playback unit can be connected to the speaker. If the speaker is already connected to another playback unit, the speaker will not appear in the Bluetooth® selection list. To disconnect the existing paired device, please disconnect your smart phone's Bluetooth connection to the speaker

TWS (True Wireless Stereo) Mode

- This speaker supports TWS and can pair with another speaker (same model).
- Turn both speakers on and ensure both are in Bluetooth mode, and on one speaker press and hold the ▶❙❙ button. The LED display screen will display "t-ON", indicating it is ready to pair with each other.
- Once successfully paired with each other, music will now be played on both speakers simultaneously.
- Powering off one of the TWS paired speakers will automatically unpair each other.

AUX Mode

- Use an audio cable (not included) to connect your external device through the AUX In port on the speaker. Press the MODE button to change to AUX mode (AUX will show on the LED display screen).
- Use the volume control knob on the speaker or the VOL- / VOL+ buttons on the remote control to adjust volume level.
- Note: to play/pause, play previous or next tracks, please control from your external device.

USB Mode

• Insert your USB device (not included) into the USB slot on the speaker. The speaker will automatically play the files.
• Press the ▶❚❚ button on the speaker or on the remote control to play/pause music.
• Press the ❚◀◀ / ▶▶❚ buttons on the speaker or on the remote control to select the previous or next track.
• Use the volume control knob on the speaker or the VOL- / VOL+ buttons on the remote control to adjust volume level.
• Note: If a USB device is not inserted in the speaker, USB mode will not be available.

FM Mode

• Press the MODE button on the speaker until FM is selected; "FM" will display on the LED display screen and you will hear "FM mode."
• Press the ❚◀◀ / ▶▶❚ buttons on the speaker simultaneously to scan for available stations.
• Press the ❚◀◀ / ▶▶❚ buttons on the speaker or on the remote control to select the previous or next station.
• Press the ▶❚❚ button on the speaker or on the remote control to mute/unmute.
• Use the VOLUME control knob on the speaker or the VOL - / VOL + buttons on the remote control to adjust volume level.
• Note: if FM station signal is weak, please use the FM antenna on the back of the speaker.
• Note: the LED light may generate interference when the FM signal is weak, please switch off the LED light if interference occurs

Micro SD Card Mode

• Insert your Micro SD (TF) card (not included and only up to 32G Max.) into the Micro SD (TF) Card slot on the speaker. The speaker will automatically play the files.
• Press the ▶❚❚ button on the speaker or on the remote control to play/pause music.
• Press the ❚◀◀ / ▶▶❚ buttons on the speaker or on the remote control to select the previous or next track.
• Use the volume control knob on the speaker or the VOL- / VOL+ buttons on the remote control to adjust volume level.
• Note: If a Micro SD (TF) card is not inserted in the speaker, Micro SD (TF) Card mode will not be available.

Note: please insert your Micro SD (TF) card into the MICRO SD CARD slot on the speaker as illustrated.

Recording

- Plug in your USB device or Micro SD (TF) card into the USB/Micro SD (TF) card slot on the speaker. The speaker will automatically play the music files.
- Press the REC button on the speaker to playback the recordings on the USB/ Micro SD (TF) card. Press the ⏮ / ⏭ buttons on the speaker to select the previous or next recording.
- Test the microphone and ensure your voice is audible from the speaker.
- Press and hold the REC button on the speaker to start your new recording. Press the REC button again to stop recording.
- The speaker will automatically play the saved recording. Press the ▶⏸ button on the speaker or on the remote control to pause playback.
- Note: the recording function can only record your voice and background music on AUX and FM mode. Ensure to select AUX or FM mode before recording.

Microphone

- Plug in a wired microphone (not included) into the MIC 1 port of the speaker. Another wired microphone can be plugged into the MIC 2 port of the speaker if 2 microphones are desired.
- Use the MIC VOLUME control knob on the speaker to adjust the microphone volume level.
- Press the ECHO+ / ECHO- buttons on the speaker to adjust the echo level.
- Press and hold the MODE button on the speaker on remote control to turn microphone priority on/off. This function is off by default. Your vocals will overpower the background music.
- Press and hold the ECHO+ button to turn on/off karaoke accompaniment function.
- After use, unplug the microphone and store away if not in use.

Guitar

- Plug in a wired guitar (not included) into the GUITAR IN port on the speaker.
- Press the GT +/GT- buttons on the speaker to adjust the guitar volume level
- After use, unplug the guitar and store away if not in use.

Troubleshooting

To keep the warranty valid, never try to repair the system yourself. If you encounter problems when using this unit, check the following points before requesting service.

Problem	Solution
No power	• Ensure that the battery is charged or the power adaptor is connected.
Remote control does not work	• Use the remote control closer to the speaker. Aim directly at the sensor on the front of the unit. • Please check the battery is installed correctly. • Replace the battery.
Echo function not working for wired microphone	• Check that the wired microphone is properly plugged into the Mic port of the speaker. • Adjust the microphone echo volume by pressing the MIC button on the speaker. • Note: echo function is not supported for guitar microphones.
Wired microphone/ guitar not working	• Turn the MIC VOLUME control knob and GT+ button to max. • Check that it is properly plugged into the MIC/GUITAR ports.
Distorted noise coming from microphone	• Have at least 1m between the microphone and speaker as having the microphone too close to the speaker will cause interference. • Ensure that the microphone is not too close to the power source as having the microphone too close to a power source will cause interference.
No response from the speaker	• Turn off the power switch, wait around 5 seconds and then turn on the switch.

Problem	Solution
Unable to find BAUHN APPS-0723 in the Bluetooth device list when pairing	• Ensure you have paired the speaker with your Bluetooth enabled device. • Ensure the Bluetooth function is activated on your Bluetooth enabled device. • Onl once device can be connected paired with the speaker at a time. Please disconnect Bluetooth connection from your smart phone when wanting to use a different Bluetooth device to pair with the speaker. • Press the ◀◀ / ▶▶ buttons on the speaker simultaneously to disconnect the existing paired device.
General sound issues	• Make sure the speaker is set to the correct mode; make sure the volume control knob is not set to minimum. • Turn the volume knob to increase the volume. • Press the VOL + button on the remote to increase the volume. • Bluetooth mode: make sure the speaker is paired to the correct Bluetooth device. • AUX mode: ensure you have connected the audio cable to the AUX port of the speaker, and the external device's volume is on.

Compliance and Responsible Disposal

Packaging

The packaging of your product has been selected from environmentally friendly materials and can usually be recycled. Please ensure these are disposed of correctly. Plastic wrapping can be a suffocation hazard for babies and young children, please ensure all packaging materials are out of reach and are safely disposed of. Please recycle these materials rather than throwing them away.

Product

At the end of its working life, do not throw this product out with your household rubbish. An environmentally friendly method of disposal will ensure that valuable raw materials can be recycled. Electrical and electronic items contain materials and substances which, if handled or disposed of incorrectly, could potentially be hazardous to the environment and human health.

Compliance

This product complies with the Australian Safety Standard AS/NZS 62368.1 to ensure the safety of the product.

BAUHN®

Warranty Information

The product is guaranteed to be free from defects in workmanship and parts for a period of 12 months from the date of purchase. Defects that occur within this warranty period, under normal use and care, will be repaired, replaced or refunded at our discretion, solely at our option with no charge for parts and labour. The benefits conferred by this warranty are in addition to all rights and remedies in respect of the product that the consumer has under the Competition and Consumer Act 2010 and similar state and territory laws.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and to compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

1
YEAR WARRANTY

BAUHN®
Repair and Refurbished Goods or Parts Notice

Unfortunately, sometimes faulty products are manufactured, which need to be returned to the supplier for repair.

Please be aware that if your product is capable of retaining user-generated data (such as files stored on a computer hard drive, telephone numbers stored on a mobile telephone, songs stored on a portable media player, games saved on a games console or files stored on a USB memory stick) during the process of repair, some or all of your stored data may be lost. We recommend you save this data elsewhere prior to sending the product for repair.

You should also be aware that rather than repairing goods, we may replace them with refurbished goods of the same type or use refurbished parts in the repair process.

Please be assured though, refurbished parts or replacements are only used where they meet ALDI's stringent quality specifications.

If at any time you feel your repair is being handled unsatisfactorily, you may escalate your complaint. Please telephone us on 1300 002 534 or write to us at:

Tempo (Aust) Pty Ltd ABN 70 106 100 252
