

General Safety Warnings

For the safety of yourself and others, follow all instructions and take notice of all warnings. When adhered to, these safety precautions can reduce the risk of fire, electric shock and injury.

Risk of Hearing Damage

- Risk of hearing damage: Never place the earphones into ears BEFORE connecting them, as the sudden volume may be too high and could cause hearing damage.
- Keep the earphones out of ears until you have turned down the volume. Test this by playing the music and holding the earphones near (but not IN) your ear, as you turn the volume down.
- Once the volume is turned down, you can place the earphones into ears and gradually increase the volume to the desired level.
