User Guide Model: APMP-1224

Karaoke Microphone

While singing, operations such as Play/Pause, Last Song/Next Song can be done on your device and/or on the microphone.

Press and hold the LED light On/Off button for 2s to turn on/off the karaoke accompaniment function.

Press and hold the Mode button for 2s to manually disconnect the existing paired device.

If you have two karaoke microphones, press and hold the Play/Pause button for 2s to

turn on the karaoke party function. Once the two karaoke microphones are connected to each other, they can playback same songthrough Bluetooth TWS connection. This function doesn't support Micro SD (TF) mode.

NOTES:

Once the microphone has been connected to your device for the first time, it will connect automatically the following times. There is no need to pair again.

If you just want to listen to music via the microphone without singing, you can simply set the voice volume to the minimum setting.

If a Micro SD (TF) card is inserted, the microphone will switch to Micro SD (TF) card mode automatically; press the M button to switch to Bluetooth $^{\odot}$ mode.

Playing music via Micro SD

4

Insert a Micro SD (TF) card into the Micro SD (TF) port. The microphone will detect all of the .mp3 files and start playing them automatically. You can press the operation buttons to pause or switch songs. When playing songs via the Micro SD (TF) Card, you can control the voice volume by adjusting the music volume.

NOTE: The microphone supports up to 32GB Micro SD card or TF card. Please make sure the card is formated as FAT32 format.

Nearly done! Just a bit more on the other side of this page...

Charging

When battery is too low, the microphone will turn off automatically. Use the included Micro USB cable to charge. The red light will be lit during charging. Charging time is approximately 2-3 hours; the red light will be off when the microphone is fully charged.

Troubleshooting

No power	 Insert the supplied charging cable securely into the power output and ensure the power outlet is switched on.
No audio	• Turn the microphone on and adjust the voice volume.
No reverb effect	• Adjust the echo button to the appropriate setting.
Noise when singing	• Move to a quieter location and ensure the mobile phone is close to the microphone during use.
Music keeps dropping out	• Move the microphone closer to the mobile phone.
Music is too quiet or not playing at all	• Adjust the volume on your phone.
Failed to connect to Bluetooth®	 Place the phone and microphone closer together. Check the Bluetooth[®] menu on your phone to ensure it is connected to the correct Bluetooth[®] device. Turn the microphone off then on to restart. On your device, turn Bluetooth[®] off then back on, and search again.
