Attach the TV stand

Unless you are wall-mounting the TV, you will need to attach its stand/legs. If you do want to wall mount the TV, see page 7 of the User Manual.

> Lay the TV face-down on a soft, flat surface (like the sofa, or a towel on a table) larger than the TV itself.

> > Match the stands to the installation points on the underside of the TV.

Attach the stand to the TV at the installation points using the screws provided. (Grab a screwdriver for this bit).

Use this cable to connect the TV to your modem for internet access. This TV also has Wi-Fi connectivity.

A new TV is exciting! So it's easy to forget something simple - like plugging it into the power outlet. Psst... make sure the outlet is switched ON.

Look at the manual!

More often than not, the answer you need is right there in the User Manual. The troubleshooting section on pages 39-41 may come in handy for tricky stuff.
